Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream does not meet the maximum and average depth criterion in either of the 2 sites that were evaluated. Therefore, the committee recommends removing the WBCR designation. Testimony was given of children playing in the creek and Stream Team regular monitoring, so assigning Secondary Contact Recreation use to the creek is recommended.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
